

THIS LIST IS FOR BONELESS CARRY-IN MEAT ONLY.

Please check the other list if you brought in a whole carcass deer.

Below is the range of deer numbers for each specialty product. Specialty products are filled in order meaning boneless meat brought in earlier will get their specialty products sooner. If you deer falls between the numbers below, that part of your deer is ready. **Be sure you confirm ALL of your items are ready before you travel from out of town! Just because one of your items is ready does not mean all of them are.** Please refrain from calling us if possible - we're unable to make product if we spend all day on the phone. We want to get you your deer as quickly as possible! Thanks!
