

Deer **1-696 ARE COMPLETE** and ready to be picked up.

If your deer is 1-696, if you could pick up your raw meat part of your order to help us out with freezer space it would be appreciated. Since we do not require a deposit up front we do require full payment of your whole order once you pick up any part of your order. We will write you a new ticket stating that you've paid and what specialty products we owe you.

Below is the range of deer numbers for each specialty product. Specialty products are filled in order meaning deer brought in earlier will get their specialty products sooner. If your deer falls between the numbers below, that part of your deer is ready. **Be sure you confirm ALL of your items are ready before you travel from out of town! Just because one of your items is ready does not mean all of them are.** Please refrain from calling us if possible - we're unable to make product if we spend all day on the phone. We want to get you your deer as quickly as possible! Thanks!
